

# Internet of Things Services Registration

## About the Service/Feature

A service that allows government entities and companies to obtain approval certificate to conduct Internet of Things services

## Service steps

- Step 1** → Log in using UAE Pass
- Step 2** → Fill-in the application form
- Step 3** → Attach the required documents
- Step 4** → The service is evaluated internally by TDRA and is classified either as mission critical or non-mission critical service
- Step 5** → If the service is classified as a non-mission critical service, it is evaluated internally and, if approved, a service registration certificate is issued to service provider
- Step 6** → If the service is classified as a mission critical service, it is directed to external IoT national committee to evaluate, raise recommendations and submit it back to TDRA, if approved, the IoT service registration certificate is issued to the applicant.
