

The Asset Management Policy

The Telecommunications and Digital Government Regulatory Authority (TDRA) of the United Arab Emirates (UAE) is committed to establish an effective Asset Management System, while complying with all legislative and regulatory requirements, and ensuring that all activities are performed in a safe and sustainable manner.

To meet this commitment, TDRA will fulfill the following:

- Commits to identify all the issue pertaining to Asset Management System, based on which objectives will be prepared.
- Ensure compliance with all applicable requirements applying to physical assets and asset management.
- Ensure that all Asset Management decisions and activities are in line with TRA's policies and interact with other standards.
- Ensure that Asset Management decisions are aligned to meet the needs of all stakeholders and also consider the applicability between all organizational functions that affect Asset Management, including but not limited to Projects/Engineering, Procurement, Maintenance and Supply.
- Ensure that TDRA assets are managed in accordance with recognized asset management techniques that consider the achievement of both short term and longer term business objectives
- Maintain assets in such a manner that they continue to meet operational requirements for the duration of their expected life.
- Continually improve Asset Management processes and performance.
- Measure, monitor and review asset management performance.

The TDRA shall review the Asset Management Policy annually and update whenever deemed necessary.
