

Activate a government service on the federal network

About the Service/Feature

FedNet provides connectivity between government entities for the purpose of exchanging and sharing data, which would save the entities the costs of direct connection with each entity independently.

Service steps

- Step 1** → Log in using the UAE Pass
- Step 2** → Submit a service request
- Step 3** → Fill in the technical details questionnaire from the government entity and attach all required documents
- Step 4** → Review the application and the questionnaire by a specialized team at the Authority
- Step 5** → Receive the notification of service provision
