

# Endpoint Protection

## About the Service/Feature

Providing a security system hosted in FedNet cloud services, installed in the servers and computers of the government entity. This system provides protection for the endpoints and devices of the entities by providing a mechanism that prevents the attacker from misusing servers and computers and sending alerts in the event of any hacking attempts. These systems can also be used for detecting intrusions that have already occurred.

## Service steps

- Step 1** → Login using the UAE Pass
- Step 2** → Submit the service application
- Step 3** → Receive the Rules of Engagement document from the Authority
- Step 4** → Fill in the service application form and attach the required documents
- Step 5** → Review the application and data by a specialized team at the Authority
- Step 6** → Install the endpoint protection system at the service provider
