

## Penetration Testing

### About the Service/Feature

Evaluating the security practices at the level of the digital infrastructure and digital services of government entities, by searching for security vulnerabilities and trying to use them to access data and internal environment, and then providing a report to the entity about the vulnerabilities that have been discovered, in order to close them before attackers exploit them

### Service steps

- Step 1** → Login with the UAE Pass
- Step 2** → Submit the service application
- Step 3** → Receive the Rules of Engagement document from the Authority
- Step 4** → Fill in the service application form and provide the required data
- Step 5** → Review the application and data by a specialized team at the Authority
- Step 6** → Proceed with the security penetration testing
- Step 7** → Obtain a Security Vulnerability Report
