Penetration Testing

About the Service/Feature

Evaluating the security practices at the level of the digital infrastructure and digital services of government entities, by searching for security vulnerabilities and trying to use them to access data and internal environment, and then providing a report to the entity about the vulnerabilities that have been discovered, in order to close them before attackers exploit them

Service steps

Step 1 → Login with the UAE Pass
Step 2 → Submit the service application
Step 3 → Receive the Rules of Engagement document from the Authority
Step 4 → Fill in the service application form and provide the required data
Step 5 → Review the application and data by a specialized team at the Authority
Step 6 → Proceed with the security penetration testing
Step 7 → Obtain a Security Vulnerability Report

Category	Variation
Type	Transactional
