

# Virtual Networking

## About the Service/Feature

The Telecommunications Regulatory Authority and the Digital Government provide two types of network connectivity that connect government entities to the federal government network. One is the dedicated network connection ( MPLS ), which is an encrypted connection used to connect government entities through a private network with the highest service level standards. The other connection is the virtual network connection ( VPN), which is done through the Internet to the FEDnet.

## Service steps

- Step 1** → Register using UAE Pass
- Step 2** → Submit a service request
- Step 3** → Fill in the technical details questionnaire by the applicant
- Step 4** → Review of the application and questionnaire by the Authority
- Step 5** → Get connected to the FEDnet
