Endpoint Protection

About the Service/Feature

Providing a security system hosted in FedNet cloud services, installed in the servers and computers of the government entity. This system provides protection for the endpoints and devices of the entities by providing a mechanism that prevents the attacker from misusing servers and computers and sending alerts in the event of any hacking attempts. These systems can also be used for detecting intrusions that have already occurred.

Service steps

Step 1 ➡ Log in using UAE Pass

Step 2 ➡ Submit a service request

Step 3 ➡ Receive the Rules of Engagement document from TDRA

Step 4 ➡ Fill-in the form

Step 5 ➡ Review the application by a specialized team at the Authority

Step 6 ➡ Installing the Endpoint Protection system for the entity
